

## **AMENDMENTS TO THE SPECIFICATION:**

Please replace the paragraph beginning at page 4, line 2, with the following rewritten paragraph:

1           FIGURE 1 illustrates the front panel of a calculator **10**, which incorporates  
2   the features of the present invention. Calculator **10** is described herein in terms  
3   of particular software and hardware features of the TI-89, a commercially  
4   available graphing calculator manufactured by Texas Instruments Incorporated.  
5   Apart from the features of the present invention, many of the features of  
6   calculator **10** described herein are typical of graphing calculators, while other  
7   features are unique to the TI-89 and TI92 Plus "family" of TI calculators. The  
8   use of the TI-89 is for purposes of description, and does not limit the invention.  
9   The features that are the subject of the present invention could be incorporated  
10   into other calculators that provide ~~provides~~ graphical displays, or they could be  
11   incorporated into other computer based teaching tools and handheld computers.
